

The full Carbon, Environment and Biodiversity Plan can be downloaded at:

torridge.gov.uk/ndevoncarbonplan

Improve the energy efficiency of our buildings	Invest in renewable energy regeneration	Drive electric, ultra-low emission or hydrogen vehicles	Ensure planning policies will help to deliver net zero carbon homes and communities	Increase tree planting across the district
Help nature recover by improving habitats for wildlife	To become net zero carbon by 2030, North Devon Council will have to change the way it delivers its services		Increased options to Reduce, Reuse and Recycle waste	Support households experiencing fuel poverty
Promote local food and drink to help farmers and food producers	Support businesses to develop a green economy	Provide training for staff and councillors to enable them to act on climate change	Report our progress every year	Support communities to become net zero carbon by 2050 through the Devon Carbon Plan
