Name of policy/function/project/service area to be assessed: Report outlining a Proposal to introduce an Animal Licensing Policy

Brief description of proposal to be assessed: Proposal to introduce a new animal licensing policy applicable to existing and prospective animal license holders.

Proposed implementation date of project/proposal: After a period of public consultation to be undertaken after the May meeting of Licensing and Community Safety Committee and after the results of the consultation have been examined by this committee and a recommendation made and approved by Strategy and Resources Committee.

Brief description of the anticipated outcomes of the proposal:

Provision	Current Arrangement	Proposed Arrangement	Comment
Consolidated animal licensing policy to cover the five animal activity licences, Zoo licensing, and dangerous wild animal licences.	No current consolidated policy for this area of licensing	Consolidated policy taking into account statutory guidance to Licensing Authorities and relevant animal welfare standards	Equally applicable to all persons/groups. Neutral impact expected across all protected characteristic groups.
Policy to contain details on the interpretation of the suitability of applicants	No current policy	Details on the suitability of applicants, and the relevance of any convictions disclosed detailed in section 7 of the proposed policy.	Equally applicable to all applicants as policy requirements relate principally to criminal convictions rather than any protected characteristic.

Impact:
